TON Presale

 John Hyman 23:50
Yes it's been approved by the alphabet audit committee and they are ready to pay Friday

8 February 2018

 John Hyman 00:09
 seemed very happy with meeting and will come back with feedback on chances of opening account in short term next week

 Pavel Durov 00:14
The meeting went well, and I could feel  was supportive. However the chances to approve the account without me meeting their Head of Compliance are slim, so I'll have to go to Zurich again at some point. It was the new Head of Compliance who blocked the account, because the current rules of  state clearly "stay away from clients dealing with cryptocurrencies".

 Pavel Durov 00:33
 is saying he'd rather keep 30.

 Pavel Durov 01:22
Dear John,
Thanks for sending the countersigned copy of the Purchase Agreement. We noticed that the countersigned booklet that you sent was for the initial investment documents that KP submitted for KPCR DGP III V.I.I.C. However, KP would like to make this investment from a different entity called KPCR NEW III V.I.I.C. We submitted new documents for this Ltd. entity last Friday, including KYC materials. I have attached the purchase agreement signed by the Ltd. entity. Could we get an updated copy of the countersigned purchase for KPCR DGP III V.I.I.C.? Also, with this change in the purchase agreement, we would to confirm when you expect KP to initial its wire transfer.
Thanks again,

Will I have to sign another agreement?

 Shyam 01:51
ugh

will get it fixed and resend 01:51

 Shyam 02:52
Only  etoro left now. 38 total. Plus   eisler 30

Lots of people running around today looking for allocations – looks like you denied all of NY and some others on a KYC basis. All of that demand flowing in to the secondary market. Some willing to pay up to \$1.

 John Hyman 07:42
Update on grey market

 Shyam 12:35
i am sorry to bother u with this PAVel but marta sent you  contract to initial all the pages. would you mind doing that as soon as
